Invitation To Bid
October 13, 2022
Bid #22-01

Sealed bids will be received at the office of USD 307, 412 E Anderson, P.O. Box 157 Brookville, KS 67425-0157 until 12:00 pm on Friday November 11, 2022. Bids will be considered at the November Board of Education Meeting on Monday, November 14, 2022 at 6:30 p.m. in the Middle/High School Library. Please direct any questions to:

Brian Rowley
Superintendent
Ell-Saline, USD 307 (785) 914-5602

Project consists of six separate bids. Bid A is for the repair or replacement of the subsurface as needed and application of an impermeable and permeable polyurethane running surface on the oval, chutes and runways. Bid for both types of surfaces may be submitted separately and both bids will be considered. Bid B is for the enlargement of the current high jump area. Bid C is for the addition of a Long Jump / Triple Jump Runway and two pits. Bid D is for the addition of a Pole Vault area. Bid E is for the addition of one shotput and/or two shot put areas. Bid F is for combination of Bid A, Bid B, Bid C, Bid D and Bid E. All bids should be submitted by November 11, 2022 at 12:00 p.m. All construction should follow the National Federation of High School Sports (NFHS) regulations for track facilities. USD 307 Ell-Saline has a six-lane track. Project must be completed between June 1, 2023 and March 1, 2024. Any variations to the Request for Proposals should be clearly identified.

- A(1). IMPERMEABLE SURFACE **USING CURRENT SUBSURFACE**
- Cleaning and removing all surface material from the track oval, chute, high jump and runways;
 - Repair of the substructure base of the track and drainage. Laser grade and compact.
 - Install new concrete curbing inside and out as needed.
 - Application of an **impermeable** synthetic surface for track and field event areas that is at least 13 mm or ½ inch .
 - Synthetic Surface shall consist of a 50:50 component ration by weight of Polyresin Binder and synthetic rubber granules. Solid content of Polyresin Binder shall be 47% and at no time shall binder be thinned prior to mixture or application. The cured surface shall provide strength, weather resistance and proper frictional characteristics consistent with conditions required for running.
 - Athletic track and field event compositions shall adhere strongly to the surface without the use of extraneous adhesives.
 - Finished surfaces shall have integral color and consist of a specially compounded color throughout the surface. Color shall be Black.
 - Paint new lines and field event markings per NFHS regulations including all exchange lanes.

- A(2). IMPERMEABLE SURFACE **REPLACING THE SUBSURFACE**
- Removal of old asphalt on a six-lane oval track and chutes. Dispose of the debris.
 - Remove the sub-base (approximately 6 inches in some places) and laser grade and compact.
 - Install new drain around the oval connecting to the existing catch basin.
 - Remove gravel currently on the inside and outside of the track oval.
 - Install new concrete curbing inside and out.
 - Install new asphalt on oval and chutes at least 3 inches in depth.
 - Application of an **impermeable** synthetic surface for track and field event areas that is at least 13 mm or ½ inch .
 - Synthetic Surface shall consist of a 50:50 component ration by weight of Polyresin Binder and synthetic rubber granules. Solid content of Polyresin Binder shall be 47% and at no time shall binder be thinned prior to mixture or application. - A(4) PERMEABLE **REPLACING THE SUBSURFACE**
- Removal of old asphalt on a six-lane oval track and chutes. Dispose of the debris.
 - Remove the sub-base (approximately 6 inches in some places) and laser grade and compact.
 - Install new drain around the oval connecting to the existing catch basin.
 - Remove gravel currently on the inside and outside of the track oval.
 - Install new concrete curbing inside and out.
 - Install new asphalt on oval and chutes at least 3 inches in depth.
 - Application of a **impermeable** synthetic surface for track and field event areas that is at least 13 mm or ½ inch .
 - Synthetic Surface shall consist of a 50:50 component ration by weight of Polyresin Binder and synthetic rubber granules. Solid content of Polyresin Binder shall be 47% and at no time shall binder be thinned prior to mixture or application. The cured surface shall provide strength, weather resistance and proper frictional characteristics consistent with conditions required for running.
 - Athletic track and field event compositions shall adhere strongly to the surface without the use of extraneous adhesives.
 - Finished surfaces shall have integral color and consist of a specially compounded color throughout the surface. Color shall be Black.
 - Paint new lines and field event markings per NFHS regulations including all exchange lanes.
- B. Enlarging our current High Jump area to at least 100' x 45' area located at the East end inside the oval with the West edge of the High Jump Area at least 3 feet East of the 11-Player football goal post (current goal posts are for an 8-player field). This would include all aspects of the high jump surface including removing the current subsurface and surface material from the high jump area; Replacement of the substructure base of the high jump area as needed per the proposed track system (Minimum of 3 inches); Application of Synthetic surface of the same structure as proposed for the track oval and chute. This bid should **not** include the high jump landing pits/foam padding, standards or poles.
- C. The addition of a long jump/triple jump runway and landing pits just South of our current long jump/triple jump runway and landing pits complete with subsurface (minimum of 3 inches). Runway should be at least 130 feet in length and 48 inches wide. Application of synthetic surface of the same structure as proposed for the track oval and chute including jumping boards and painted lines per NFHS regulations. Location of the long jump/triple jump runway and landing pits per attached diagram.

Ell-Saline Schools

Unified District No. 307
412 E Anderson, PO Box 157
Brookville, KS 67425-0157
(785) 914-5602

- D. The addition of pole vault pad surface and runway. The Pole Vault pad area and runway will need to be built to NFHS specifications. Proposal should include a concrete runway (4'x130') (minimum of 3 inches in depth.; two concrete pole vault pads (20' x 26.5') and Pole Vault Boxes. This bid should include all aspects of the pole vault surface including the substructure base and application of synthetic surface of the same structure as proposed for the track oval and chute. This bid should not include the pole vault landing pits/foam padding and standards. Location of the pole vault area per attached diagram.
- E. The construction of **one or two** shotput throwing surface, toe board and markings according to NFHS guidelines. The construction of the throwing area complete with outside boundary edging of an appropriate material. This bid should include the cost of raising, leveling and compacting the base to the throwing surface and throwing area. Location of the shotput areas per attached diagram. The board will consider installing either a single area OR a double area. This bid is not a bid for three areas so the bids should be separate for proper consideration.
- F. The combination of Bids A, B, C, D and E with any discounts included for combining all track, high jump, long jump, shot put and pole vault renovations at this time.
- This request for proposals is separated out to allow the Board of Education to consider improvements that will fit into our budget. While all bid requirements must be complete and agreed upon for Proposals A, B, C, D, E, and F, bidders do not have to make proposals for all sections [A(1), A(2), A(3), A(4), B, C, D, E, and F] to be considered. For example a bidder may include proposals only for Section A(1), B and E and still be considered.
 - **Basically, we need to improve our track running surface and enlarge our high jump area. We would also like to be able to consider adding a long jump/triple jump area, add at least one shot put area and consider adding a pole vault area. Ultimately if our budget allows we will make all improvements.**
 - **The Board requests a reference list by November 4th of at least area three tracks with the identical surfaces that you are bidding. This will allow them to better consider each bid at the School Board Meeting.**

INSTALLATION OF WORK

All procedures connected with the installation of the running surface shall be in strict accordance with the recommendation and requirements of the manufacturer as described within the scope of work below.

The surface contractor shall have a minimum of five (5) years installation experience and shall provide proof of completing similar jobs including references. Please include the address and phone number of the contact person of at least five (5) references.

Ell-Saline Schools

**Unified District No. 307
412 E Anderson, PO Box 157
Brookville, KS 67425-0157
(785) 914-5602**

Those wishing to bid products or provide substitutions other than those specified by the U.S.D. 307 must submit for approval at least seven (7) days prior to the bid date. Approval of specifications other than those specified does not constitute acceptance of the final bid by U.S.D. 307.

This project must be completed between June 1, 2023 and March 1, 2024 and should be planned as to not disrupt the normal school activities and procedures.

SCOPE OF WORK

The contract work to be performed under these specifications consists of furnishing all of the required labor, materials, parts and supplies necessary for the base repair, preparation and installation on a 6 lane running track and field event surfaces in accordance with these specifications and conforming to standards for running track and field event construction and repair. All lines, starting lines, and event markers must be clearly and accurately marked/painted according to the National Federation of State High Schools Association (NFHS) rules.

GENERAL

I. All construction must meet NFHS Specifications unless otherwise noted or approved by the U.S.D.

II. Quality assurance-:

- A. Manufacturer must have a minimum of five years of experience in the construction of tracks and track surfaces.
- B. All construction and applications must be done by certified and/or qualified personnel.
- C. All materials must be approved and high quality for their purpose and the purpose of the facility.
- D. The contractor/bidder will supply the manufacturer with all state, local, and ADA codes and regulations.
- E. The bidder/contractor will provide the U.S.D with detailed plans for the repair and construction when submitting the bid.

III. Warranty:

There will be a minimum of a five-year warranty on the product and workmanship in relation to it being free from defects in materials and workmanship beginning with the date that the product is completed at the job site. Contractor shall provide a written warranty for the surface installation and paint striping/lettering against faulty materials or workmanship for a period of five (5) years from the date of acceptance from the Owner (U.S.D. 307). This is in addition to the base repair crack warranty. All defects occurring within the warranty period for the surface installation and paint striping/lettering of the track and crack repair of the base shall be promptly repaired upon written notification from the owner, at no cost to the owner. The surface will resist wear and tear normal for the designated uses as well as degradation from microorganisms, rot, mildew and fungus.

Ell-Saline Schools

**Unified District No. 307
412 E Anderson, PO Box 157
Brookville, KS 67425-0157
(785) 914-5602**

IV. Manufacturers Requirements:

All materials and equipment supplied shall be installed, applied, or erected in strict accordance with manufacturer's trade association requirements unless technical specifications bound within this bid sheet exceed those requirements, methods or procedures set forth in manufacturer's recommendations.

If the contractor/bidder finds the RFP requirements unacceptable or unclear, they shall submit a letter to the superintendent to clarify those requirements. The Superintendent will determine if the Request for Proposals needs to be changed and notify all known bidders.

V. Verification of Dimensions:

It shall be the responsibility of the contractor/bidder to site verify all dimensions and conditions at Ell-Saline Junior/Senior High School located at 414 E Anderson, Brookville, KS 67425, before submitting a proposal/bid and before fabrication or installing equipment or materials.

Arrangements should be made with the District prior to inspecting the site. Arrangements can be made by contacting the superintendent by phone (785-914-5602) or by email at browley@ellsaline.org.

VI. Materials, Equipment, and Substitutions;

Where items of equipment and/or materials are specifically identified by a manufacturer's name, model, or catalog number, only specified items may be used in the base bid except as hereinafter provided.

VII. Temporary Equipment Facilities;

The contractor/bidder shall provide for their own use, temporary walks, runways, scaffolding, shoring, bracing hoisting and any other equipment required for the proper progress of their work and remove same at work completion. The U.S.D.'s restrooms may be utilized by the workers, as long as they are left in an orderly manner and all possible means are used in order to keep debris from being tracked in the building. Workers using inappropriate or vulgar language while on district property will be asked to leave the premises.

PRODUCTS

I. Product features

- a. Repair asphalt base as needed in a manner that addresses existing cracks and defects warranted for a period of no less than five years from the time of installation of the new track surface. If the proposal does not require repairing or replacing the substructure of the track, then the surface area will be warranted for the period of no less than five years from the time of the installation including future substructure repairs that negatively affect the surface area.

Ell-Saline Schools

**Unified District No. 307
412 E Anderson, PO Box 157
Brookville, KS 67425-0157
(785) 914-5602**

- b. Apply adequate base mat in accordance with manufacturer's instructions to ensure proper bonding of resilient surface to the base.
- c. Warrantee permeable and impermeable proposals for surface areas for a minimum of five years.

II. Materials and Finishes

All materials and finishes will have the ability to withstand weather conditions that are normal to the extremes that make up the Kansas climate.

III. Design Loads. Normal design loads. Exceeded in all cases.

All design load conditions will meet or exceed normal conditions of those for the use of the construction and that are normal to the extremes that make up the Kansas climate.

EXECUTION

I. Installation:

- Bidder/contractor shall use factory trained installers.
- Bidder/contractor shall conduct the repair, construction and installation in accordance with the manufacturer's detailed installation procedures and State and County regulations.
- Care shall be taken not to interrupt the daily operation of the buildings. Work shall be scheduled so that the building will be left watertight and premises will be left clean at the end of each day. Care shall be taken not to damage school district property and facilities.
- The District's representative will periodically examine the work in progress, as well as upon completion in order to ascertain the extent to which materials and procedures conform to the requirements of these specifications. The presence of the District's representative shall in no way relieve the contractor of his contractual responsibilities.

SITE PREPARATION

- Site preparation shall be coordinated with the U.S.D. so as to not disrupt the daily operation of the buildings.

RECEIVE AND STORE EQUIPMENT AND MATERIALS

The storage of materials, tools, and equipment on the building site is to be done in such a way as to not impede progress of construction or the work. Track contractor shall provide water proof storage required for his use, such storage shall not be at a locations that is objectionable to the District. Any off-site storage facility used shall have proper insurance protecting the contents from all loss. Evidence of this insurance shall be produced prior to request for payment of any stored materials. Storage of materials on site will be stored in a location as to not impede the daily operations of the school district.

PROPOSALS;

- Each proposal must be submitted using the proposal form included within this bid document in a sealed envelope, addressed to the USD 307 Board of Education by 12:00 p.m. on November 11, 2022. The USD 307 Board of Education shall consider all proposals submitted by the deadline at the November Board of Education Meeting scheduled on Monday, November 14, 2022 at 6:30 p.m. in the Ell-Saline Middle/High School Library.
- Each sealed envelope containing a bid must be plainly marked on the outside as “**Bid for Track Improvements**”.
- The envelope should bear on the outside the name and address of the bidder.
- If forwarded by mail, the sealed envelope containing the bid must be enclosed in another envelope addressed to the USD 307 Board of Education, Ell-Saline District Office, 412 E Anderson, PO Box 157, Brookville, KS 67425-0157.

SALES TAX EXEMPTION; Sales tax exemption certificate will be furnished by the School for this work. The successful bidder shall request the school administration to apply for an exemption certificate prior to commencing with work on this project.

PERMITS AND CODES; The bidder shall be responsible for acquiring contractor’s license, permits, etc., required for all work involved in the project. All work shall comply with all local, state, and federal laws, ordinances, and regulations as well as the most recent Uniform Building Code (UBC) if applicable.

INSURANCE; A certificate of insurance will be required before work begins showing that the contractor has insurance of the type and amounts as follows:

1. Workman’s compensation insurance equal to or to exceed government requirements adequate for all their employees. The contractor shall require any subcontractor to provide similar insurance unless covered by the contractor’s insurance policy.
2. A certificate of insurance must be provided to the district covering workman’s compensation insurance and public liability insurance and shall provide no less than one (1) million dollars umbrella.
3. Property damage liability shall provide a total limit of not less than one (1) million dollars for all damage arising out of bodily injury to and destruction of any property.
4. Automobile public liability shall provide a total of no less than one (1) million dollars for any one person and a total of not less than one (1) million dollars as to any one accident, and with a property damage limit to cover all automotive equipment used by the contract related to the work.

PERFORMANCE BOND AND STATUTORY BOND

Performance Bond and Statutory Bond will be required in an amount of 5% of the contract amount from the successful contractor.

Note: The Performance Bond shall be issued in the name of the Track Contractor who shall also act as the General Contractor.

Unified District No. 307
412 E Anderson, PO Box 157
Brookville, KS 67425-0157
(785) 914-5602

Bonding Requirement:

The Bidder to whom a contract for work is awarded will be required to furnish a performance bond and payment bond as well as proof of insurance.

Bidder Representation: By submittal of a bid the bidder represents the following:

- The bidder has read and thoroughly examined project documents.
- The bidder has a complete understanding of the terms and conditions required for the project.
- The bidder has fully informed themselves of the project site, conditions, and surrounding area.
- The bidder has found no errors, conflicts, ambiguities, or omissions in the project documents that would affect the cost, progress, or performance of the work.
- The bidder is familiar with all applicable Federal, State, and local laws, rules, and regulations pertaining to execution of the contract and the project work.
- The bidder shall be responsible for acquiring contractor's license, permits, etc., required for all work involved in the project. All work shall comply with all local, state, and federal laws, ordinances, and regulations.
- The bidder has complied with all requirements of these instructions and the associated bid documents.

COMPLETION OF WORK:

Work will begin on or after May 29th, 2023 and completed on or before March 1, 2024.

All work is to be completed in a manner not to interfere with the 2023 Track Season, the 2023 Football Season or the normal daily operations of the 2023-2024 School Year.

Upon completion of the work, the contractor shall leave all surfaces and the adjacent site free from all accumulations of dirt, debris and job related materials and shall remove all job related soil from walls, windows, floors, ladders, sidewalks, lawn and parking areas.

PAYMENT: Full payment shall be made within (30) thirty days after completion and acceptance of the work.

The Owner (USD 307 EII-Saline) reserves the right to reject any or all bids or to waive any informalities in the bidding. Selection shall be based on price and the character, integrity, reputation, judgement, and experience of the Contractor for the type of work to be performed. If the Contractor cannot demonstrate the above qualities to the satisfaction of the Owner, their bid could be rejected.

By order of the Board of Education, Unified School District No.307, Saline County, Kansas.
September 12th, 2022.
